2025 Fire Safe SC Community Goals

Reduce Home Fires - Promote Consistent Messages - Improve Data Quality - Provide Valued Resources

Fire Safe SC Community Designations are awarded annually. To be considered for 2025, all community goals listed below must be completed by <u>Wednesday, Dec. 31, 2025.</u>

1. Educate department members on community risk reduction.

- To meet the requirement, department members must complete **four <u>different</u> courses.** 🔗 **View Classes Here**
- Each course counts as one of the four required. Multiple people from the same department taking the same course only count as one. Only one certificate per course counts toward the education goal. <u>*Example*</u>: *A Chief and a firefighter attend the CRR Summit - this counts as one course.*
- For credit, you must provide the course name, completion date, and certificate (if received).

2. Identify top three residential calls for service in 2024.

- What were the top three residential calls for service in 2024?
- What interventions were used to reduce them in 2025? (Engineering, Emergency Response, Economic Incentive, Enforcement, and/or Education).
- How are you measuring and evaluating these interventions?

3. Transition incident reporting/data collection from NFIRS to NERIS.

- Complete and upload NERIS worksheet.
- What date did the department on-board to NERIS?
- How did you use the data to reduce risk in your community?

4. Utilize the power of partnerships to reduce risk in the community.

- List any new partners you are working with this year.
- How are each new partner providing wealth, wisdom and/or work?
- What existing partnerships are being continued year after year?

5. Promote fire and life safety education.

- What groups from the community received fire and life safety education
- How many citizens were educated?
- List outreach types/methods used by your department.
- List any fire and life safety messages you promoted.
