

# CORE FOUR

Practicing these core safety messages may save your life.

## 1. Right Alarm - Right Location

The right type of alarm placed in the right location in your home.

## 2. Fire Drill Plans and Prep

Practice a fire drill at home, sleep with your bedroom doors closed, and have fire extinguishers in their proper place.

## 3. Fire Sprinklers Save Lives

Properly installed and maintained fire sprinklers save lives.

**Home fire  
sprinklers can  
stop a fire in less  
than 1.5 minutes.**

Take action when you see a problem.  
**Don't ignore safety issues.**

## 4. See a Problem - Take Action
