

Flooding Safety

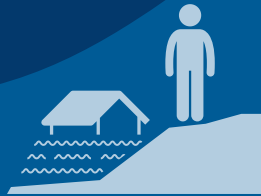

Before:

- Prepare a weather emergency kit.
- Know your zone and if your area is prone to flooding.
- Know your evacuation routes.
- Sign up for local weather alerts.

During:

- Stay informed by following weather updates.
- Evacuate to a safe location when told by authorities.
- Avoid flood waters.
- Stay aware of downed power lines.
- Stay away from electrical outlets and cords covered by water.
- Stay above water levels.

After:

- Wait for the "All Clear" from authorities before returning.
- Follow water safety guides after flood (i.e. boil water advisories).
- Replace electrical equipment damaged by water.
- Pay attention to caution signs and closed roads.
